

The Grange School PE Statement and evaluation 2016 - 2017

PE and sport are a vital part of life at The Grange School. We firmly believe that physical education and sporting competition is an integral contributor to a child's development and well-being, embedding within them values such as fairness and respect.

A broad and balanced PE curriculum is intended to increase pupils' self-confidence in their ability to manage themselves and their bodies within a variety of movement situations. At The Grange School, pupils experience a range of physical activity areas including: dance, games, gymnastics, swimming & water safety, athletics and outdoor & adventurous activities. Progressive learning opportunities, combined with varied teaching approaches, endeavour to provide stimulating, enjoyable and appropriately challenging learning experiences for all pupils. Through the selection of suitably differentiated and logically developed tasks, pupils, irrespective of ability, enjoy success and are motivated to further develop their potential. Pupils are given the opportunity to make a positive contribution to their learning.

A balance of individual, paired and group activities, involving co-operative, collaborative and competitive situations, aims to cater for the preferences, strengths and needs of every pupil. Such activities aim to promote a broad base of knowledge, skills and understanding. In addition, these activities develop a pupil's ability to work independently, and to respond appropriately and sympathetically to others, irrespective of their age, gender, culture or ethnic background.

The activities that pupils are taught and the teaching approaches adopted seek to provide pupils with opportunities to develop their creative and expressive abilities, through improvisation and problem solving. Pupils are encouraged to appreciate the importance of a healthy and fit body, and begin to understand those factors that affect health and fitness. They make decisions to attend extra-curricular activities in and out of school to develop their own fitness and physical literacy.

Our Aims

To develop skilful use of the body, the ability to remember, repeat and refine actions and to perform them with increasing control, co-ordination and physical fluency.

To develop an increasing ability to make and apply decisions and selecting, linking and applying skills, as well as tactics and compositional ideas.

To improve observational skills and to use their observations and judgments to improve their own performance and that of others.

To develop the ability to work independently, and to communicate effectively with others whilst making a positive contribution to their own and others' learning.

To develop physical and mental capacity through challenge and application.

To provide opportunities for pupils to become physically confident in a way that supports their health and fitness.

To develop an understanding of the effects of exercise on the body.

To help develop an awareness of how to lead healthy and active lives.

To promote an understanding of safe practice, and develop a sense of responsibility towards their own and others' safety and well-being.

To promote leadership skills in all pupils.

Physical Education and Sports Premium

For the academic year of 2016/17 the school was allocated £9,836 and our school decided to use the premium in this way:

Provision	Cost	Impact
Curriculum time coaching, Nov 2016 - July 2017	£1445	Staff expertise in the teaching of PE increased. Quality of PE teaching improved. Wider range of activities offered within the curriculum.

Sustainability

The school is committed to ensuring high quality provision for PE and Sport in future years, which is why a large proportion of the PE premium is spent on coaches to develop not only the skills of the children, but also those of the staff.

The school intends to continue the Young Sports Leaders programme in subsequent years.
