Dear Parents & Carers,

Many of you may be asking how you can be sure that we will keep your child safe when they return to school next week.

The UK Government has produced extensive guidance for schools throughout the COVID19 pandemic, which has been produced based on scientific evidence. We are obliged to comply with this guidance and we are constantly monitoring updates and amendments to the guidance. When these are made, our practices and procedures may change.

Attached to this letter and also available on our school website is our latest guide, which will provide you with an overview of the measures we are taking to safeguard your child. The text is taken entirely from the official government guidance to schools.

Further, more detailed information (including full risk-assessments) can be found on our school website.

As you may be aware, schools are being constantly presented with changes to the guidance and advice. We would like to reassure you that we are constantly monitoring and evaluating the guidance for changes.

Kind regards
Vicki
