Dear Parents & Carers,

The UK Government has updated its advice on the use of face coverings in schools.

In light of this updated guidance, I have updated our risk assessment for the use of PPE. This is now available on our school website, in the risk assessment section. In addition, I have attached the updated risk assessment document to this email.

I have also produced a guide to the use of face coverings which should help you explain the current situation to your child.

I would like to thank you for your patience in receiving so much information today. Further information will follow before school begins and your ongoing support is very much appreciated.

Kind regards

Vicki
